

Take control of PKU with NeoPhe tablets

Prekulab's latest and most advanced supplement, NeoPhe LNAA tablets provide double protection from Phe, inhibiting Phe entry to the blood and preventing it from entering the brain. The first original clinically-proven formula for double protection.

PKU patients using NeoPhe can get up to 80% of their protein intake from a normal diet, allowing them more control in their daily lives.

Key facts

- Clinically proven
- Double protection from Phe
- Up to 80% normal diet
- LNAA + vitamins and minerals
- For children and adults
- No sugar content
- No allergens
- No reported side effects

- NeoPhe is suitable for all types of Phenylketonuria (PKU) and Hyperphenylalaninemia (HPA).
- The tablets are odourless, flavourless and easy to swallow. They use an advanced coating technology for slow release, avoiding a high concentration of acid in the stomach to help keep Phe levels more stable.
- NeoPhe tablets are not suitable while planning a pregnancy or when you are pregnant.

Clinical trials

Clinical trials conducted in a number of countries, including Denmark, US, Russia and Turkey verify:

- Lowering of Phenylalanine in the blood
- Lowering of Phenylalanine in the brain
- Increased blood concentrations of Lysine and also Tyrosine and Tryptophan, which are precursors for Dopamine and Serotonin, respectively
- Reduced risk of depression
- Liberalisation of diet

Age

Patient age compatibility should be determined by a physician.

Dosage

To be used under medical supervision. NeoPhe must be supplemented with a moderate restricted PKU-diet, vitamins and minerals in accordance with individual needs. A normal dose is one tablet per kg body weight per day, supplemented with a meal, or as directed by a physician. Dosage is dependent on the patient's age, body weight, medical condition and individual phenylalanine tolerance. NeoPhe tablets can also be combined with NeoPhe powder, Avonil tablets or powder, or other amino acid formulation. Not suitable as a sole source of nutrition.

Storage

Store in a cool, dry place away from direct sunlight. When not in use, reseal and keep can closed. Dispense from the original can. The expiry date refers to an unopened and correctly stored can.
